The Plague Commissioner,

Mysore.

Dear Sir,

It is represented that the Plague camp and burning ground are situated close to the Railway quarters at Shimoga and that Plague patients are being brought from the town and placed in these huts which were erected some time ago merely as a detention camp.

As this is objectionable I shall be glad if you will order the early removal of the huts to a more suitable distance from the Station.

I think the burning should be closed and another selected on a more suitable site further from the Station. Will you kindly let me hear from you.

Yours truly,

W. H. Stearns

The Plague Commissioner
in Mysore

Sir,

In reply to your docket no 2421 dated 3rd instant forwarding copy of a letter from Traffic Manager S. M. Railway I have the honour to state that the huts used as Plague Camp have been inspected both by you and the Senior Surgeon often and approved of. The site was selected after mature and anxious consideration. The removal at present may mean an outlay again of some 2,000 or 3,000 Rupees and seeing that the whole town is infected and that probably we have already passed through the worst of the Plague epidemic this season, I would request you to reconsider whether no time should

In hunt in the
Ref WAC
from
7/12/11
by

be.

1 be lost in removing the huts.

2. The burning ground was shifted from this side of the hill opposite the Station to the other when the Station was opened. Another at the Sigehatti side of the town has been closed. It is difficult to find hearers now already, and Government has had to get most of the corpses removed since the plague began. I submit that on account of the great difficulty of finding another suitable place, this need not be disturbed. The burning is closed from the view of the Station by the hill and is far enough off. I have issued orders again to prevent any burning on this side by stealth or at night -

.....

Dear Sir,

With reference to your letter No. 2537 of the 13th instant, I beg to inform you that it is stated that a case has actually occurred in which infected rats coming over from the Plague camp died in the Railway Quarters where a man was in consequence attacked with plague and succumbed to it.

It would therefore appear that the Railway Quarters cannot be free from the danger of infection.

As regards the burning ground, the corpses of persons who have died of Plague are being carried by the station and the stench of the burning bodies is carried by the wind to the station and is most disagreeable.

Under the circumstances will you kindly give this matter your further consideration and favour me with a reply at your convenience.

Yours truly,

 MYSO. E. S. V.

Sir,

In reply to his memo no: 2867-8 dated 29-12-1900 I have the honour to state that the plague has gone down considerably as may be seen from the accompanying figures. In the Plague Hospital also, there has been practically no patients except one who was admitted on the 25th December 1900 and is about to be discharged shortly, and the Senior Surgeon has therefore considered it advisable to withdraw the medical officer attached to it.

See & recommend
 SS
 19/1

Wash
 Ref
 18/1/01

2. The whole town was infected and the fact that a rat or two died in the Station Master's Quarters does not prove that the evil can be guarded against by the removal of the sheds, which are at a distance of about a furlong from here. I may add that the bungalows in the town which are certainly much more exclusive in their admissions of outsiders than a public railway building can possibly be, and which are at great distances from probable sources of infection have

18/1/01

Submit the
 want-land
 18/1/01

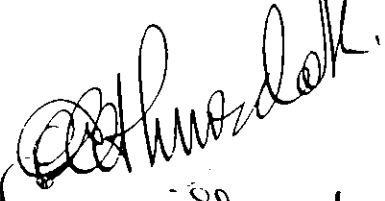

have had rats dying.

3. In the circumstances it would, in my humble opinion, be a waste of public money to remove the huts and build them elsewhere at present.

4. With regard to the Complaint about the burning ground, I have requested the Vice President to observe the place closely for some months, and to suggest if there is any place to which it can be more conveniently removed. I shall also give personal attention to the matter when I have some time at my disposal in Head Quarters and shall dispose of it, in consultation with the Municipal Board and the Civil Surgeon.

15

To, The Secretary to the Govt of Mysore
General and Revenue Departments

Sir,

Adverting to the correspondence ending with your letter no 15820 of the 27th inst. D.B(P)446 may last on the subject of the removal of the Plagne camp and the burning ground from near the Railway station, I have the honour to state that the circumstances connected with the selection of the site now used for the Plagne camp were duly reported to the Plagne Commissioner in this office letter no. 1265 dated 5th December 1900. The only objection to it is its close proximity-

proximity to the Railway station and Railway staff quarters. The Railway going population also object to it as passengers in going to and from the town have to pass right in front of the Plague camp.

2. The next suitable site for this camp is quite 4 furlongs away from the present one, on the road to Benkipur, in Survey no. 72. The present Civil Surgeon has inspected and approved of it. The removal of the sheds in question to this latter site would seem to do away with all possible objections on the part of the Railway authorities and, on a full consideration of all the interests involved, I am inclined to favour the proposal. The cost of removal may be roughly

roughly estimated at Rs 700.
 This estimate provides also for
 some necessary repairs to the
 materials of which the shields
 are made up the new site being
 further removed from the river,
 a cart will be required for
 supply of water to the camp.
 The survey number, referred to
 is a 'Hiduvale' Land measuring
 Acres 12 and Guntas 18 and
 assessed at Rupees 6.8.4, out-
 of which only about 3 acres
 and 9 Guntas will be taken
 up for the purpose. The occupant
 being paid a suitable rent
 therefor. If these proposals
 meet with the approval of
 the Government, arrangements
 can at once be made for
 shifting the camp.

3. As regards the burning
 ground

roughly estimated at Rs 700.
 This estimate provides also for
 some necessary repairs to the
 materials of which the sheds
 are made up. The new site being
 further removed from the river,
 a cart will be required for
 supply of water to the camp.
 The survey number, referred to,
 is a 'Hiduvale' land measuring
 Acres 12 and Guntas 18 and
 assessed at Rupees 6.8.0, out-
 of which only about 3 acres
 and 9 Guntas will be taken
 up for the purpose. The occupant
 being paid a suitable rent
 therefor. If these proposals
 meet with the approval of
 the Government, arrangements
 can at once be made for
 shifting the camp.

3. As regards the burning
 ground

ground I may mention, for the
 information of the Government,
 that as stated in para 4 of the
 office letter of the 18th January
 above quoted the cremation of
 corpses was changed to the east-
 side of the Purple hill, i.e. the side
 of it remote from the Railway
 station. This cremation ground
 is at least half a mile away
 from the Railway station and
 is not to the windward of it
 the hill obstructs the view of the
 burning corpses. I do not see
 any objection to the continuance
 of this cremation ground. The
 Civil Surgeon is also of the same
 opinion I expect. Moreover that
 people will have less frequent
 recourse to this ground here
 after as arrangements are now
 being made to restore, under
 proper

Correspondence ending with letter No.44/35 dated the 15th July 1901 from the Deputy Commissioner, Shimoga District, regarding the removal, from their present position, of the Plague Camp and the Cremation ^{from at Shimoga} ground from ~~their~~

Order thereon No. *1555-56*
27/7/11 *AD 363-4*
The Traffic Manager, Southern Maharashtra Railway, having complained against the location of the Plague Camp and the Cremation ground in close proximity to the Railway Station at Shimoga, the Dy. Commr. was called upon to submit a full report concerning it with suggestions for their removal to a less objectionable place

2. The Deputy Commr. after briefly stating the circumstances connected with the selection of the site ~~now~~ used on which the present plague camp stands ^{reported} in the letter cited above, that the place he has now selected in consultation with the Civil Surgeon of Shimoga, for a plague camp is quite four furlongs away from the present one, on the road to Benki- pur, in survey No.72

which is a
high-

vall land measuring 12 acres and 18 guntas

41

guntas and assessed at Rs.6-8-0 out of ~~which only 3 acres and 2 guntas are~~
which only 3 acres and 2 guntas are pro-
posed to be taken up for the purpose,
the amount being paid a fair rent
therefor.

This is approved as also the
rough estimate of Rs.700/- for the
removal of the Plague Camp including
the provision for sundry ~~repairs~~

~~necessary~~ repairs to the materials
of which the ^{present} sheds are constructed.

3. As regards the cremation
ground being a source of annoyance
to the Railway Officials owing to its

nearness to the railway premises and
station, the DyCommr states that the
burning ground is at least half a mile ~~away~~

away from the railway station and is
not to the windward of it and that also

as the cremation of corpses has been
changed to the east of the Furle Hill i e,

the side of it remote from the Ry.
station, the hill effectively obstructs

the view of the burning ^{of} corpses and
that he is therefore of opinion with

which the Civil Surgeon also concurs
that there can be no reasonable object-

ion for the continuance of the same
in its present place. Moreover, as

the Dy. Commr. expects that people
will have less recourse to it in future

as arrangements are under contem-
plation, under proper safe guards to

*Necessary provision will be
made for this expenditure in
the Budget for the ensuing month.*

42

reopen

the former cremation and burial ground at the other end of the town, near Segehatti, Govt. do not consider it necessary to shift it from its present position The Dy. Commr. will however report for the information of Govt. what precautions he proposes to take to prevent the drainage getting into the river above the town and to prevent the smoke getting into the town.

As regards the ^{reopen-} shifting of the ground near Segehatti, Govt. have some misgiving whether the place is not too close to the inhabited parts of the town for this to be safely allowed.
